

TESTIMONIALS

TW Kang, Managing Director, EMP Group of Companies, Malaysia.

As a former Malacca High pupil who is currently involved in exporting and publishing businesses in Kuala Lumpur, it was great to see that former Malacca High pupils are getting into the Internet to socialise and to network with each other in their respective businesses.

Through our Malacca High Alma Mater, our company has obtained some publishing businesses from former pupils of different age group. Our company has also purchased Householders/Fire Insurances from Malacca High old pupil who is in this line of business.

It is certainly good to see our Malacca High Commercial Network grows over time where more and more services/businesses can be transacted between our Alma Mater members.

Ee Chong Kok, Managing Director, Art Printing Works Sdn. Bhd., Kuala Lumpur

Our company was fortunate enough to print Malacca High School first coffee table book “**Our Story - Malacca High School(1826 to 2006)** in conjunction with her 180 years of founding in 2006. Being a product of Malacca High School in mid 1960s, I was excited that a group of Malacca High former students, were passionate enough to undertake this venture.

Since I was involved in the printing industries, our company was honoured to be awarded the contract to print this book.

Robert Lim Fung Wang, Managing Director, Canvas Art Sdn. Bhd., Kuala Lumpur.

Our firm was involved in the scanning and restoration of old photos extracted from Malacca High School official school magazine “**The Optimist**”. These restored old photos were used in the publication of Malacca High School first coffee table book in 2006 – “**Our Story – Malacca High School (1826 to 2006)**”

It was through our Malacca High School Old Pupils Network that my company was able to be involved in this historic publication.
